AGENDA ITEMS:

Sonya Ferguson Would like to discuss the water barriers on the track as Isaac broke his tibia on the seconded last race day. He didn't even fall off his bike the barrier was just too close to the inside rut before the tunnel jump and just he hit it. The club would like to pull the water barriers about 1.5M back off some of the corners and try and rope 2 or 3 tires together to put on the track from riders trying to cut the track. The club has got a mower from Matt Brown and Matt asked the club if we could do an exchange for the mower to a Gold card for 2015. The 35K grant was resubmitted in December Cassidy will follow that up.
